Plan beds, crops, layout, and budget with one calm garden workspace

ad.

No subscription

Calendar sync

GardenBook

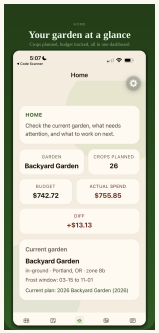
Garden planning tools for home growers.

What GardenBook does

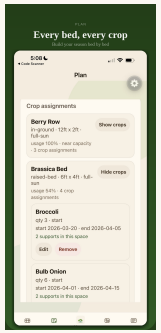
GardenBook gives home gardeners one place to organize spaces, assign crops, review layouts, and track spend before the season gets busy.

Layout & Design
Visual layouts that show what goes where.

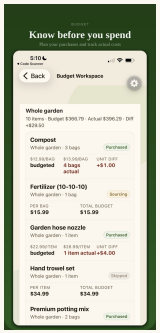
Budget Tracking
Know before you spend and track actual cost.



At-a-glance dashboard



Bed-by-bed planning



Budget workspace

Good fit for

- Home growers planning a season bed by bed
- Community garden organizers and volunteer leads
- Educators, clubs, and youth/family garden programs
- Anyone who wants structure without another subscription

GardenBook keeps data on-device by default, with optional calendar and reminders expor

Designed for iPhone and iPad

Phone screens keep the day-to-day plan clo
iPad views make layout, overview, and bud
for more visual planning and shared walkthr
